Feedback of Aboriginal Culture Experience.

"I just want to thank you for the amazing session you`ve delivered today at Westall Library. This was one of most engaging sessions I have witnessed during my almost 8 years working in the public libraries.

Your session had it all: great visuals, things to touch, hear, see and explore. Children were fully engaged from start to finish, and it was great that they could try so many things from touching the football made of possum skins to playing pipes, from feeling the real boomerangs to watching how the traditional colours emerge from natural materials like rocks and charcoal. Amazing!!!

Many thanks to you and your team for developing and delivering such an incredible sessions!"

Sean delivered 3 wonderful performances that engaged our families and children 0-5years of age. The program was very interactive with hands on experiences and education to families. Please share the feedback with Sean, we are grateful for the professional program Sean delivered."

- Didgeridoo & Beats

"I thought today's imagination magic was great for little kids. It was a performance that was accessible to them. Loved how he got the kids involved too. Hands on is always great to keep little ones entertained.

I really enjoyed today's performance of Didgeridoo Australia today 18/6. It had a lot of different aspects of it, a lot of different ways of learning, listening and answering questions, dancing, clapping, sticks, paint, possum fur. It kept everyone engaged of various ages. Well done!

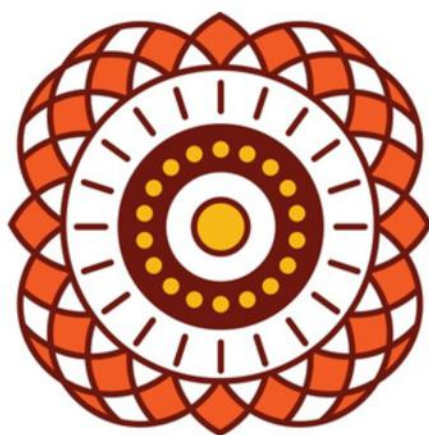

Izabella is so shy, I would have liked her to get up and dance with the other kids. Although on arriving home she showed dad her painted forehead. I even learnt something on the day. She got some sticks and started banging them together. I'm sure she enjoyed it.

It was an amazing experience to witness today's event. All of us were very much entertained and our toddler was happy and showed a fantastic participation. Great learning experience for the whole family."
